

“Down is useless when wet. That's why we're excited about Sierra Designs' DriDown™ Jackets and sleeping bags.”

Down is useless when wet. That's why we're excited about **Sierra Designs'** DriDown jackets and sleeping bags—like the 30-degree **Zissou**, above. A molecular polymer makes each feather hydrophobic, so the down stays dry seven times longer and (if it does happen to get soaked) dries 33 percent faster. From \$200; sierradesigns.com
