

“ Packed with DriDown™, the Zissou retains warmth and loft in damp conditions ”

Hiking Essentials

Sleeping Bag: Down lofts better than other insulation—until it gets wet. Enter the **Sierra Designs Zissou 30 Lite** sleeping bag. Packed with DriDown (feathers treated with a polymer to repel water) the Zissou retains warmth and loft in damp conditions. If doused, it dries faster than regular down. **\$200; sierradesigns.com**
